

# Master of Science

Students will be exposed to the relevant theories and critical research issues in their respective areas of specialization. Each student is required to conduct a research study and complete a thesis detailing the research objectives, literature reviewed, the research design, data analysis and findings of the research. The student has to prepare and defend his/her research proposal before being allowed to continue his/her research and completion of his/her thesis.

## PROGRAMME STRUCTURE

### Phase 1 - Coursework

Coursework is mandatory. Each student must attain an overall CGPA of 3.00 before he/she is allowed to proceed to Phase II.

Two core courses (6 credit hours)

- Research Methodology
- Research Analysis

### Phase 2 - Proposal Defence

Each student must publicly present and defend his/her MSc research proposal. Evaluation of the student's knowledge of the extant literature in his/her area of research, his/her ability to integrate the theories pertinent to the research in formulating the appropriate research framework and his/her ability to adopt the appropriate research design.

### Phase 3 - Thesis Preparation

Data collection, data analysis and thesis writing.

### Phase 4 - Viva Voce

Evaluation of the student's knowledge and ability to complete his/her research study to the satisfaction of the panel of three independent examiners.

**INTAKES** March & September
